

PINNACLE SL300

Bringing You Peace of Mind

DIFFERENT BY DESIGN

The Pinnacle Stair Lift has an established reputation as an industry leader for its innovative design, solid performance and reliability. It's patented drive system serves as the cornerstone that makes this stair lift different from all others on the market.

- Lubrication free, keeps you, your stairs and even your pets free from a mess
- Low friction system provides reduced cost of ownership: no maintenance required and lower energy bills
- Runs on batteries with efficient motor resulting in extended performance during power loss
- The over-sized worm gear offers greater stability
- Symmetrical design provides industry's most compact folded width

CLEAR WALKWAYS

Harmar's exclusive automatic and mechanical folding rail removes obstructions and trip hazards at the lower landing area. Its operation is automatic, the user does not need to stop or have someone else assist. And since it's mechanical, there are no additional switches or controls.

DESIGNED WITH YOU IN MIND

Pinnacle SL300 Stair Lift

Ergonomic control switch helps those with arthritis or limited hand dexterity

Oversized footrest provides more comfort and security

Nylon-polymer gear with helical worm drive features 6 points of contact for ultimate stability

My Pinnacle gives me the confidence to go up and down my stairs more safely. It operates so smoothly and is very quiet. I now feel more comfortable in my own home and less dependent upon others. My children have peace of mind knowing I am safer with my Pinnacle.
